I am missing invoices from April and May. This will be slow but I am starting to print out receipts.

Please find get these receipts. In particular, track down the owner's draws. I remember going through all of this once earlier this year. There is a concern that some things did not occur, for example a trip on the ferry, however, I am certain this would have been for the [REDACTED] matter but it is leaving one day and coming back the next. There was one owners draw that was for Girard but what were the others for? Pull the bank statements and then correlate with receipts. My veracity is under scrutiny here. I didn't create a scan everything policy not to have all this. So please just dig it all up.
